## **TRAFFIC ADVISORY** **EDWARDS ROAD CLOSURE**

Edwards Road is currently undergoing street rehabilitation. Part of this work requires the full depth removal and complete replacement of the pavement. The nature of this extensive work requires full closure of the roadway to preserve pedestrian and motorist safety. The work should only take a few days provided the weather is good and will be conducted during night time hours to minimize the disruption to peak hour traffic flow.

Access to affected properties within the closure area will be maintained and each property owner and business patrons will be permitted to access the area.

Edwards Road, from Erie Ave. to Observatory will be closed to traffic on Monday, June 14, 2004, over night and again on Tuesday, June 15, 2004 between the hours of 8:00 PM to 6:00 AM for the full depth road repair work. If the weather is bad, the work will be rescheduled and an updated traffic advisory will be issued.

A detour route for this closure is posted and motorists are advised to exercise caution and reduce their speed as they approach the closure points and when they use the detour.
